

Creating a cohesive brand ecosystem for
Latoya - A Latin American Restaurant

Role: Visual & Brand Experience Designer | Studio: Design Brewing Co. | Industry: Hospitality

About Latoya

Latoya is a vibrant Latin American restaurant and bar that takes you on a culinary journey across the region's diverse food culture. Rooted in tradition yet open to global influence, the menu reflects Latin America's dynamic spirit — from Peru's Japanese-inspired Nikkei flavors to Indian-spiced notes found in Caribbean kitchens.

Each dish celebrates heritage while embracing creative fusion. Our handcrafted cocktails, prepared with fresh, distinctive ingredients, are designed to be both visually compelling and thoughtfully balanced in taste.

At Latoya, dining goes beyond the plate. It is an immersive experience shaped by warmth, storytelling, and attentive service — where every dish carries a narrative, and every visit feels intentional.

Brand Identity & Visual Design

Brand personality

Vibrant / Artisanal /
Cultural / Contemporary

Audience

Urban diners, premium
casual, experience-driven

Brand vibe

Latin warmth + modern minimal

Logo System, Colour & Typography
